Beautify
Your Home

How better can we do this than to sell you a Park Mills Extra Super Carpet for your front room or bedroom? To know that a Carpet is made by the Park Mills is enough. They are the standard by which all other Carpets are valued.

They weigh more to the square yard and have more pairs to the inch than other mills make. In other words, they are the best and therefore the cheapest. You will please notice our showing of them in our windows for the next few days.

Fire in Craftsbury.

Craftsbury, Aug. 19.—The farm buildings of Osman Loomis were burned yesterday forenoon. The fire is said to have been caused by cats heating in the barn. These were modern farm buildings. Some household furniture was saved. The buildings were insured.

A BROKEN PANE OF GLASS.

One That Once Cost Citizen George Francis Train \$60,000.

A broken window pane once cost George Francis Train more than \$60,000. It was this way: Citizen Train, "with the brains of twenty men in his head, all pulling different ways," went to Omaha in the spring of 1864. At that time he was the most talked of man in America. He had not a thing but money. He bought 5,000 city lots and altogether spent several hundred thousand dollars. He boarded at the Herndon House, the best hotel in sight. The quixotic Train was regular in only one thing—his habits. He always occupied the same seat at the table. One morning a pane of glass was broken out of a window directly behind his chair. He protested and was advised to change his seat. He would not. Instead he paid a servant 10 cents a minute to stand between him and the draft. After breakfast he expostulated with the landlord, but received no satisfaction.

"Never mind," said Train. "In sixty days I will build a hotel that will ruin your business."

And he did. The contract was let that day. Scores of men were put to work. The site selected was Ninth and Harney streets, near the Missouri river. Citizen Train went to New York and engaged Colonel Corzens, a noted caterer of that city, as manager for his hotel.

The building alone cost \$40,000. The furnishings cost \$20,000 more. In the basement was a gas plant, the only one west of St. Louis. The work was done on time, and, true to his word, sixty days after he threatened the manager of the Herndon House George Francis Train, citizen of the earth, opened his hotel, which he called the Cosmos House. The grand opening ball was attended by the governor of Nebraska and his staff, the mayor of Omaha and many notables from other states. The house was a blaze of glory and a scene of almost oriental magnificence. Just when the big reception was well on there was a sudden flash, a strange noise, and then—total darkness! The gas plant had collapsed.

The Cosmos House did a flourishing business for a year or two, and the Herndon House was badly crippled. Finally Train fell out with his manager, and the place was closed.

After the business part of Omaha moved back from the river the Herndon House declined and finally relapsed into a state of innocuous desuetude. A few years later it became the property of the Union Pacific railroad.

STRUCK BY LIGHTNING.

Summer Home of New Yorkers Burned at East Pownal.

Bennington, Aug. 19.—A farm house at East Pownal occupied by George Goodwin and family of New York, as a summer residence was struck by lightning Monday night and burned to the ground. The occupants escaped by their night clothes saving none of their effects. The building was an old fashioned farm house and the loss consisted largely in the contents.

St. John's Court, C. O. F., will hold its annual picnic Saturday afternoon next at Caledonia park. All members and friends are invited.
